Another varied selection of foreign visitors this month including a number of brand new registrations. The Lake Buccaneer OH-AKA on the 8th is one of two recently registered in Finland and was from Gatwick to Luton. The day before saw Queen Air OO-CVN (c/n LD-4, ex N25CA) making its first visit for Ghent Air, en route from Ghent to Dublin. The Cessna 340 N4553L on the 12th is a Cessna Brussels demonstrator and night stopped with Northair. The Mooney N1298X on the 16th is not new but it is not as common in the U.K. as the Danish registered specimen OY-DII which visited on the 21st. The P.149 D-ENJA which night stopped on the 17th is a new civil registration and is c/n o24 ex Luftwaffe. D-IHFK on 22nd and 24th is the new pressurised version of the Navajo and was being operated by Northern Executive Aviation. Cessna FRA150 G-BACD was delivered to Northair on the 14th and after an acceptance check an air test was made on the 18th, delivery was made to the new owners at Portsmouth on the 19th. Also with Northair the other Cessna FRA150 G-AZLL has completed its rebuild and was airtested on the 12th, it is now in use as a Company hack with Northair. Falco G-AZAY came in for C of A renewal during the month but it was decided to take it to Liverpool instead, unfortunately C of A ran out on the 29th before it could be moved so it will now need a special permit before it can leave. On the 25th the Rallye G-ARTT made one of its rare flights when it demonstrated to a prospective buyer. The Cassutt on the 30th was non-radio and night stopped on its way to the Tees-side air race the following day. Laker 1-11 G-AVBY on the 14th brought Leeds United back from Turkey and the flight was made direct from Ankara non stop. The R.A.F. Whirlwind on the 27th was from Leconfield and used callsign 'Rescue 25' whilst the Andover on the same day was 'Ascot 4966'. The pumas on the 30th used callsigns 'BRR/ 26/27/28' and were from 33 Sqdn.
